Summary

The addition of prebiotics in infant formula alters the GI microbiota resembling that of breastfed infants¹

GOS is one of the most common prebiotics²

Prebiotics *GOS* supplemented formula shows a spectrum of benefits:

Better stool consistency^{1,3}

Higher concentration of bifidobacteria compared to infants on a non-supplemented standard formula.¹

Lower risk rates of colic and regurgitation.³

GI: Gastrointestinal; GOS: Galacto-oligosaccharides.

Summary

Omega-3 PUFAs "DHA" participates in regulating gut immunity and in maintaining gut homeostasis¹

Role of omega-3 PUFAs "DHA" in improving intestinal immunity:

Influencing the gut microbiota by:¹

- Modulating the type and the abundance of gut microbes.
- Altering the levels of proinflammatory mediators.
- Regulating the levels of short-chain fatty acids or short-chain fatty acid salts.

Omega-3 PUFAs exert their beneficial effects on health, brain functions, and behavior by influencing gut microbiota composition and, thus, gut-brain axis functionality.²

Reducing the intestinal epithelial cell damage.¹

Increasing intracellular mitochondrial activity and cell membrane integrity.¹

PUFAs: Polyunsaturated fatty acids; DHA: Docosahexaenoic acid.

Nuralac® advanced formula supports immunity by offering...

Higher
concentration of
DHA
(~70% more).¹

Immunity

Higher
concentration of
GOS
(20% more).¹

Adding the
most **abundant**
HMO in breast
milk (**2'-FL**).¹

Almost the highest level of GOS+2'-FL
combined vs. competitors (0.43 g/100 ml)

DHA, Docosahexaenoic acid; GOS, Galacto-oligosaccharides; HMOs, Human-milk oligosaccharides; 2'-FL, 2'-Fucosylactose.

Summary

Toddlers consuming the formula with 130 mg DHA per day have a lower incidence of respiratory illness ($p=0.024$), compared to the formula without DHA.¹

DHA: Docosahexaenoic acid.

1. Minns LM, Kesting EH, Neely MP, et al. Toddler formula supplemented with docosahexaenoic acid (DHA) improves DHA status and respiratory health in a randomized, double-blind, controlled trial of US children less than 3 years of age. *Prostaglandins Leukot Essent Fatty Acids*. 2010;82(4-6):287-93.

¹ Nurturing Growth Information

Nuralac® advanced formula is brought to you by quality makers
"Almarai" with the highest quality standards

First National Formula

- GMO free.
- Free from heavy metals and insecticides.
- Highest hygienic standards with consistently low microbial count.
- Quality control with 4,500 steps of quality checking.

GMO: Genetically modified organism
